🔍

Rogers & Goffigon designs and produces high-end, luxurious, natural fiber textiles using old world weaving techniques. The company has gained recognition for their *refined linens, neutral color palette* and special spinning techniques, including wet-spun linen, giving their fabrics characteristics unique to the industry. The collection has expanded to include fabrics ranging from *sheer linens, silks, and wools* for window treatments to extremely durable *mohair velvets* for heavy-use upholstery, most of which is woven and imported from Europe.

The screenshot shows a web browser window displaying the Rogers & Goffigon Ltd website. The page features a navigation menu with links to About Us, The Collection, Login, and Contact Us. A search bar at the top contains the query "linen pattern". Below the menu, a section titled "Select a search category below, to help find what you're looking for." includes three categories: TEXTILES, PASSEMENTERIES, and LEATHER. A "SEARCH RESULTS" section displays a grid of 15 fabric swatches, each with a small "+" icon in the top-left corner. The swatches show various textures and patterns, such as solid colors, woven patterns, and printed designs. The browser interface includes standard elements like back, forward, and search buttons, along with a Google search bar at the top right.

Need to confirm Collection sections.

**Question:** Should you always be able to filter by material within each section?  
Currently each section only has unique filter capabilities specific to section type.

Need to confirm what Trade section includes, and how it functions.

Need to confirm search type.
